**Advanced Placement Admission Requirements**

*Students will be admitted to the AP Program if they meet the following requirements.*

**AP Enrichment (Grade 9)**

Students must demonstrate a strong academic background in the core subjects. Admission is based on all of the following:

- a minimum average of 75% in English, math, science, history and geography

- learning skills that suggest self-discipline and commitment to academic success
- completion of the application form with the necessary documentation
- attendance of student and parent/guardian(s) at an orientation/interview session in the spring prior to entry, if requested

Students who have demonstrated success in their three years of AP Enrichment will be admitted to the culminating year of the AP Program. At the end of the grade 12 year, students will take part in Standardized Exams that measure individual performance against stated objectives for each subject. Students from across the world sit down to write a common exam at the same time. Students will have a range of courses from which to choose the exams that they will write. Students who are successful on an AP Exam will be awarded a university credit in that subject area.

The application package for the Advanced Placement Program is attached. Students applying to this program will be reviewed by the school principal and complete the selection process.
